

TINA IS JUST ARRIVING HOME FROM SCHOOL, AND EVEN FROM A DISTANCE SHE CAN HEAR STRANGE INSTRUCTIONS BEING CALLED OUT FROM THE TREE HOUSE. SHE OFTEN HANGS OUT THERE WITH HER TWIN BROTHER **TIM**. IT USUALLY DOESN'T TAKE LONG BEFORE THESE TWO PORSCHE FANS START TALKING ABOUT WHAT ARE, FOR THEM, THE COOLEST SPORTS CARS IN THE WORLD ...

ELECTRIFYING

WHAT'S GOING ON UP THERE? TIM? I THINK I KNOW.

WAY TOO HIGH! AND JUST A BIT TO THE LEFT!

OF COURSE! EVERYTHING GOES FASTER WITH **SPEEDY** ON THE JOB. THE FACT THAT OUR LITTLE PORSCHE EXPERT NOT ONLY LOOKS LIKE A RACE-CAR DRIVER BUT CAN ALSO FLY AROUND LIKE A SUPERHERO IS EXTREMELY PRACTICAL.

HEY TIM! I HAD A FEELING YOU WERE TINKERING WITH OUR NEW SHELF. YOU CAN HEAR IT MILES AWAY, BUT I SEE YOU HAVE A PERFECT LITTLE HELPER.

IT'S A PLEASURE TO HELP YOU TWO!

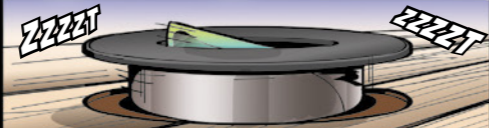

AND WITH A CORDLESS DRILL, IT'S TOTALLY EASY ...

JUST THINK OF IT. NO CORD, HUMS QUIETLY, AND DRILLS TONS OF SCREWS INTO THE WOOD IN NO TIME AT ALL.

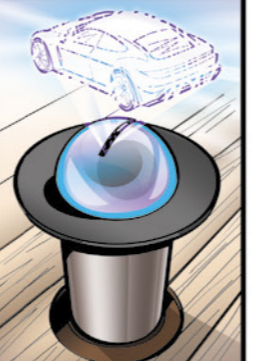

EXACTLY! AND WHILE WE'RE ON THE SUBJECT OF **ELECTRICITY AND MOBILITY** I JUST REMEMBERED SOMETHING THAT I'M SURE WILL FASCINATE YOU BOTH. LISTEN UP!

USING A WIRELESS CONTROL PANEL ON HIS SLEEVE, **SPEEDY** ACTIVATES THE HOLOPILLAR WHICH RISES ...

... OUT OF THE FLOOR AND GENERATES A 3-D PROJECTION SURE TO QUICKEN THE PULSE ...

... OF ANY PORSCHE FAN.

WOW!

ELECTRIFYING: THE NEW PORSCHE TAYCAN!

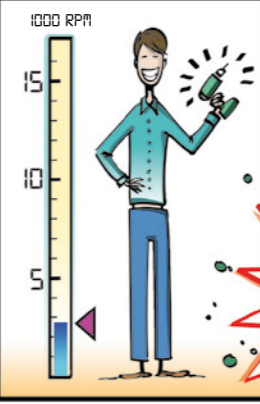

A MEGA SPORTS CAR FROM ZUFFENHAUSEN!

IT'S A COMPLETELY NEW DRIVING EXPERIENCE WHEN THE ELECTRIC MOTOR LAYS DOWN ITS FULL POWER RIGHT FROM THE START.

FROM 0 TO 60 IN UNDER 3 SECONDS—THE TAYCAN IS A VERITABLE ROCKET. IT CAN ACCELERATE MULTIPLE TIMES IN A ROW WITHOUT LOSS OF POWER. ITS TOP SPEED, BY THE WAY, IS OVER 155 MPH.

BUT IT'S NOT JUST PERFORMANCE THAT'S IMPORTANT TO PORSCHE. IT'S ALSO THE ENVIRONMENT. THE PRODUCTION PROCESS IN ZUFFENHAUSEN DOESN'T GENERATE ANY HARMFUL CO₂ EMISSIONS.

AMAZING! WHAT A CAR! I SUPPOSE MY CORDLESS DRILL WOULD QUICKLY FALL APART IF I TRIED TO REV IT LIKE ...

... AN ELECTRIC PORSCHE.

HAHA! AND I'M SURE THE TAYCAN RECHARGES AT TURBO SPEED, AS WE'D EXPECT FROM PORSCHE ...

OF COURSE! UNDER OPTIMAL CONDITIONS, A FIVE-MINUTE CHARGE GIVES IT A RANGE OF 62 MILES. SPEAKING OF PIT STOPS ... ARE YOU AS FAMISHED AS I AM? MY BATTERIES NEED A SPEEDY RECHARGE! HEHE!

... SO YOU'RE BACK ON TRACK IN A SNAP AFTER A BRIEF PIT STOP. ISN'T THAT RIGHT, SPEEDY?
